17. Public Procurement Office	Implementation of public procurement contracts granted under the Public Procurement Law and supervision of expenditures not subject to the law.	PW-15105-22P
18. Accounting Department	Handling the economic, financial, accounting and bookkeeping process.	PW-15105-22Q

19. Technical Department	<ul style="list-style-type: none"> . Organization, supervision and planning investment and modernization processes, as well as renovation and maintenance in facilities and buildings. . Supervision over energy, heat and water management in buildings and facilities. . 	PW-15105-22R
20. IT Centre	Maintenance and development of the network and server infrastructure as well as IT applications and systems.	PW-15105-22S

CENTRAL LABORATORY	Performing research services. Managing, coordinating, and supervising the activities of research laboratories.	-----
21. Central Laboratory	<ul style="list-style-type: none"> . Management, coordination and control of the activities of research laboratories. . Optimization of the research potential within statutory and commercial research and the course of the teaching process. . Optimization of the use of research and measurement devices 	PW-15105-22T
22. Laboratory for Cardiac Stress Testing	<ul style="list-style-type: none"> . Physiological monitoring of sports training . Exercise capacity testing and evaluation . Assessment of exercise capacity aptitudes for practising sports . Assessment of the effect of training on body size. . 	PW-15105-22U
23. Laboratory for Biomechanical Analysis	Measurement and evaluation of biomechanical parameters of the human motion system.	PW-15105-22V
24. Laboratory for Motor Studies in Natural Environment	<ul style="list-style-type: none"> . Recording, analysis and comparison of limb movement stability at a given load in the natural environment . Recording and analysis of the muscle strength sensation for the upper and lower limbs . Recording and analysis of the stability of movement of the upper and lower limbs in the atmospheric and aquatic environment. 	PW-15105-22W
25. Laboratory for Biokinetics	Control of the biological condition of the population in terms of body posture, body composition and motor coordination.	PW-15105-22X

26. Laboratory for Ball Game Studies	<ul style="list-style-type: none"> . Testing the motor skills of athletes involved in ball games . Monitoring of heart rate of people participating in various forms of physical activity . Diagnosis of the aptitudes of young athletes to play ball games . Recording and analysis of peripheral perception. . 	PW-15105-22Y
27. Sport Science Laboratory	<ul style="list-style-type: none"> . Testing of motor characteristics of athletes . Psychomotor testing in athletes . Studies on delayed onset muscle soreness. 	PW-15105-22Z
28. Internal Medicine Laboratory	<ul style="list-style-type: none"> . Physiological control of physiotherapy progress . Biomechanical control of physiotherapy progress. 	PW-15105-22ZA
29. Cosmetology Laboratory	<ul style="list-style-type: none"> . Measurement of skin properties. . Registration of changes in body surface temperature. . Body composition assessment. 	PW-15105-22ZB
30. Physiotherapy Laboratory	<ul style="list-style-type: none"> . Body posture and foot analysis. . Body transfer – change of body position and gait. . Body stability in a standing position. 	PW-15105-22ZC
31. Occupational Therapy Laboratory	<ul style="list-style-type: none"> . Assessment of the effectiveness of interventions in occupational therapy in improving the quality of life of people with various disabilities. . Activities of daily living (ADL) and instrumental activities of daily living (IADL) from an occupational perspective. . Ergonomics of daily living activities in the area of self-care, fulfilling duties and spending free time. . 	PW-15105-22ZD
32. Kinesiology Laboratory	<ul style="list-style-type: none"> . Research on motor control. . Recording of biosignals: EEG, EMG, MMG and force/torque. 	PW-15105-22ZE

33. Musculoskeletal Dysfunctions Laboratory	<ul style="list-style-type: none">. Biomechanical assessment:. posture control of adults and children with neurological disorders,. psychomotor development in pediatrics,. monitoring and the effects of physiotherapy in orthopedics and traumatology, in physiotherapy of balance disorders and dizziness, and in rehabilitation with the use of virtual reality.	PW-15105-22ZF
